Varun Dhand

As a sophomore student, I possess a deep enthusiasm for web development and have attained advanced skills in JavaScript, React, and Redux. I am fully committed to remaining updated with the ever-evolving trends and technologies in the field, actively pursuing opportunities to enhance my knowledge and abilities. By synergizing my technical prowess with a keen sense of design, my goal is to craft immersive and top-performing websites that captivate and inspire users.

SKILLS

HTML · CSS · JAVASCRIPT · PYTHON · BOOTSTRAP · TAILWIND CSS · FIGMA · REACTJS · REDUXJS · DJANGO · GIT

PERSONAL PROJECTS

Compresso - An Article Summarizer App ↗
- An article summarizer designed to simplify reading by providing clear and concise summaries of lengthy articles.
- Developed a responsive and modern UI using React and Tailwind CSS, integrated APIs for article data fetching and processing, showcasing proficiency in front-end development, API integration, and UI design.

Shopping Cart Page ↗
- Created a dynamic Shopping Cart Page utilizing Redux Toolkit to manage state and deliver a seamless shopping experience.
- Implemented functionality for adding and removing items, managing quantities, and calculating the total cost.

Portfolio Website
- Developed a visually appealing and interactive portfolio website using Next.js, Tailwind CSS, and additional dependencies such as Lodash, Framer Motion, etc.
- Implemented smooth animations, responsive design, and optimized performance to showcase my skills and projects effectively.

Expense-Tracker App ↗
- Developed a minimalist web application using React to create an Expense Tracker App, allowing users to track their income and expenses.
